If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>For Nigeria it is informative and gives brief statistically important data. But most of the references were from internet this is limitative. There is not many statistically reported data like I mentioned below.</p> <p>Yes</p> <p>Yes</p> <p>Yes</p> <p>Some grammar mistakes and misspellings are existing. Some of them Highlighted in yellow color in the main text. A table should be added to summarize the entire information like knowledge, attitudes, risk factors etc. There is not many statistically reported data from cited references like, prevalence rates, epidemiological data, the percent of transmitted disease over all, the factors effecting the understanding of transmission etc.</p> <p>Reference format is not written correct. Some cited references are given only one author followed by et al. Some of them contains all of the authors' names and some given 3 names and followed by et al. This should be rechecked and rewritten according to journal recommendations. The authors should lessen the internet references, can be used journal articles instead.</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>Grammar mistakes and misspelling were exist. The manuscript should be revised for English language.</p>
