	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>Kawasaki disease if left untreated can cause serious damage to the heart muscle and coronary arteries. Aneurysms, Arrhythmias are some potential complications, so timely treatment and nursing of patient with IKD is necessary and such type of manuscripts are important for scientific community.</p> <p>You can change the title as "Nursing of Children with Incomplete Kawasaki Disease".</p> <p>In abstract there should be short description of topic with keywords. Result and conclusion should be at last.</p> <p>Yes, but you can add pictures of eyes(conjunctiva), oral cavity, skin for more clarity.</p> <p>Yes</p> <p>Yes sufficient</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>No, there are many grammatical mistakes and sentences are not properly formed. For example, in oral care section, you can correct as follows: If mouth has ulcers, don't use toothbrush, gargle frequently with lukewarm water. Have liquid or semi solid diet. Take care that food should not be too hot.</p>	
<p>Optional/General comments</p>
