<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>yES</p>	
<p>Optional/General comments</p>	<p>My only suggestion for this paper is that if possible kindly add the weight of shovels, tines under testing in tables and if we have standard weight as per BIS codes so that we can compare % more weight in manufactured shovels, tines etc which will add on to tractor draft. If we don't have weight in BIS codes, please mention weight of shovels, tines under testing in a separate table alongwith material.e Mild steel, etc. That will be sufficient. This for better readability of audience. Rest is fine.</p>
