

Review Form 1.7

Journal Name:	Asian Journal of Research in Infectious Diseases
Manuscript Number:	Ms_AJRID_114834
Title of the Manuscript:	Impact of dolutegravir as first-line antiretroviral treatment on the tolerance and virological suppression among PLHIV in the southern region of Senegal
Type of the Article	

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <ul style="list-style-type: none"> ➤ Is the manuscript important for scientific community? (Please write few sentences on this manuscript) ➤ Is the title of the article suitable? (If not please suggest an alternative title) ➤ Is the abstract of the article comprehensive? ➤ Are subsections and structure of the manuscript appropriate? ➤ Do you think the manuscript is scientifically correct? ➤ Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>The manuscript is important for scientific community but needs revision .</p> <p>Yes, the article is suitable</p> <p>The abstract of the article is not comprehensive and it needs rewriting</p> <p>Yes, subsections and structure of the manuscript appropriate</p> <p>Yes,manuscript is scientifically correct but needs major work on document writing</p> <p>Not all reference recent. Some of references are too old (e.g. see 2,9,10,11,14,15,16,17,19,20,21)</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>Yes</p>	
<p>Optional/General comments</p>	<ul style="list-style-type: none"> ➤ The abstract should be brief and summary of overall document. So it needs revision. ➤ Introduction have to indicate about the concern of your objectives like magnitude ARV resistant from non-dolutegravir ART from previous study and other policy maker concern. What the factor the affects tolerance and viral suppression , problem related with non-dolutegravir etc... ➤ Methodology should be clear. How you select study samples, the procedures data collection and data quality control, data analysis and presentation. ➤ Result is some what good it should arranged. Different table type of presentation like tables have to in result. Remember there is no table-2 in this document ,but put see table in different places???? ➤ Discussion is ok but again needs to be adjusted and clear. Write your finding ,interpret ,compare with other findings and put your justification on comparative findings. ➤ Reference is not sequential ,some are not recent as well. Check it and rewrite across entire document.
