

Review Form 1.7

Journal Name:	Asian Journal of Environment & Ecology
Manuscript Number:	Ms_AJEE_115303
Title of the Manuscript:	Sustainable spaces - The evolution of biophilic design in modern architecture: A review
Type of the Article	Review Article

Review Form 1.7

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <ol style="list-style-type: none"> Is the manuscript important for scientific community? (Please write few sentences on this manuscript) Is the title of the article suitable? (If not please suggest an alternative title) Is the abstract of the article comprehensive? Are subsections and structure of the manuscript appropriate? Do you think the manuscript is scientifically correct? Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<ol style="list-style-type: none"> Yes, the manuscript is important to the scientific community, and it would be stronger if it included more recent studies. Yes, the title of the article is appropriate, but the stages of development lacked neutrality by ignoring Andalusian architecture Yes, the article summary is comprehensive. Nagham, the subsections and the structure of the manuscript are appropriate, except for the definition paragraph, which is modified into concepts Yes, you believe the manuscript is scientifically correct. Indeed, there are more sophisticated studies that have been added in the research comments 	
<p>Minor REVISION comments</p> <ol style="list-style-type: none"> Is language/English quality of the article suitable for scholarly communications? 	y
