

**Review Form 1.7**

Journal Name:	<b>Asian Journal of Medical Principles and Clinical Practice</b>
Manuscript Number:	<b>Ms_AJMPCP_115129</b>
Title of the Manuscript:	<b>Possible Effect of Cinnamomum camphora on Pain Amelioration and Pain Threshold in Mechanically Induced Pain in Female Wistar Rats</b>
Type of the Article	

**Review Form 1.7**

**PART 1: Review Comments**

	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p><b>Compulsory</b> REVISION comments</p> <p>1. <b>Is the manuscript important for scientific community?</b> (Please write few sentences on this manuscript)</p> <p>2. <b>Is the title of the article suitable?</b> (If not please suggest an alternative title)</p> <p>3. <b>Is the abstract of the article comprehensive?</b></p> <p>4. <b>Are subsections and structure of the manuscript appropriate?</b></p> <p>5. <b>Do you think the manuscript is scientifically correct?</b></p> <p>6. <b>Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</b></p> <p><b>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</b></p>	<p>1. Pain can significantly interfere with daily activities and overall quality of life. Effective pain management is crucial. So, in this particular work the candidate has studied the effects of <b>“Cinnamomum camphora on Pain Amelioration and Pain Threshold in Mechanically Induced Pain in Female Wistar Rats”</b> and the results show a positive impact on the pain management</p> <p>2. Yes</p> <p>3. Yes</p> <p>4. Aim and Objectives are missing in the manuscript</p> <p>5. The research methodology is correct but the experimental design needs a clarification</p> <p>6. Yes</p> <p><b>Additional Suggestions/comments</b></p> <ul style="list-style-type: none"> <li>• The status of the ethical committee approval has not been provided</li> <li>• Didn't explain the methodology of passive avoidance test, analgesic meter, tail clip</li> <li>• Didn't explain the method of induction of pain</li> <li>• In the experimental design, the candidate has not mentioned about the pain induced group</li> <li>• The experimental designs are missing for the group of healthy treated rats and the group of pain-induced untreated rats</li> <li>• The mode of administration of the Camphor and Piroxicam were not mentioned in the materials and methods</li> <li>• Why have you done the passive avoidance test in this study, what is the relationship of learning and memory in management of pain-need the explanation</li> </ul>	
<p><b>Minor</b> REVISION comments</p> <p>1. <b>Is language/English quality of the article suitable for scholarly communications?</b></p>	<p>1. Yes</p>	
<p><b>Optional/General</b> comments</p>		

**PART 2:**

	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p><b>Are there ethical issues in this manuscript?</b></p>	<p><i>(If yes, Kindly please write down the ethical issues here in details)</i></p>
