

Review Form 1.7

Journal Name:	Asian Journal of Research in Dermatological Science
Manuscript Number:	Ms_AJRDES_115217
Title of the Manuscript:	Coexistence of pigmented Bowen's disease and cutaneous capillary malformation: An unusual case with dermatoscopic findings
Type of the Article	Case study

Review Form 1.7

PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>Yes, this case report describes the coexistence of capillary malformations which are benign vascular anomalies with bowen's disease which is a precursor malignant neoplasms. This underscores the fact that coexistence of conditions should always be kept in mind and clinicians should always do a complete clinical as well as dermoscopic examination for malignant or premalignant conditions whenever they see a suspicious lesion. Moreover this coexistence has never been reported before which makes it a novel case.</p> <p>Coexistence of pigmented Bowen's disease and cutaneous capillary malformation: An unusual case, with dermoscopic findings (needs " , " in between unusual case and dermatoscopic)</p> <p>Yes</p> <p>No, Conclusion heading is missing,add the heading " CONCLUSION" for the last conclusion paragraph in the case report</p> <p>Yes</p> <ul style="list-style-type: none"> • Typical dermoscopic feature of bowens disease which is glomerular vessels is missing in this report • Please mark the specific findings in dermoscopy with arrows in the figure, thus making it more clear for the readers. 	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>Yes.</p> <p>I would like to suggest a minor modification in abstract paragraph , 8th line , please reconstruct the sentence into "The coexistence of a cutaneous capillary malformation with a skin malignancy is reported only once previously by E.Bostan et al, hence we present this case which associates these two entities</p>	
<p>Optional/General comments</p>	<p>Words "Dermoscopy" and "dermatoscopy" are both used in the report, please use any one of the two spellings in the report.</p>
