The introduction provides a comprehensive overview of the use of agrochemicals and their potential impacts on the environment and agricultural sustainability. However, it would benefit from clearer structuring and more precise language. Care should be taken to ensure that the in-text citations are proper. For eg, Bhardwaj and Sharma, 2013 (page 2)</p> <p>2. The description of the study area and experimental setup is detailed. However, were the soil samples analysed in triplicate? Regarding the highest and lowest values of the soil properties, it would aid the reader to know if the differences were statistically significant.</p> <p>3. A more detailed discussion of the implications for agricultural practices, environmental management, and future research directions would enhance the conclusion</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>yes</p>	
<p>Optional/General comments</p>
