

Review Form 1.7

Journal Name:	Asian Journal of Geographical Research
Manuscript Number:	Ms_AJGR_115581
Title of the Manuscript:	Drivers of Carbon Emissions in Kenya: The Perspective of Technology
Type of the Article	

Review Form 1.7

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <ol style="list-style-type: none"> 1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript) 2. Is the title of the article suitable? (If not please suggest an alternative title) 3. Is the abstract of the article comprehensive? 4. Are subsections and structure of the manuscript appropriate? 5. Do you think the manuscript is scientifically correct? 6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<ol style="list-style-type: none"> 1. Yes, the manuscript is important for the scientific community as it reveals a negative relationship between technology and carbon emissions in Kenya, suggesting that technological innovation can help reduce environmental impact while supporting economic growth. The proposed strategies offer actionable insights for policymakers. 2. The title effectively captures the focus of the manuscript. 3. Yes, the abstract is comprehensive. 4. Yes, it's okay. 5. Yes, based on the thorough literature review and the methodology described, the manuscript appears to be scientifically grounded. 6. The references appear to be sufficient and recent for supporting the arguments and claims made in the manuscript. 	
<p>Minor REVISION comments</p> <ol style="list-style-type: none"> 1. Is language/English quality of the article suitable for scholarly communications? 	<p>Good enough.</p>	
<p>Optional/General comments</p>	<ol style="list-style-type: none"> 1. How do different types of technological innovations impact carbon emissions in developing countries, specifically in the context of Kenya? 2. What role do government policies play in shaping the relationship between technology and carbon emissions? 3. How do education levels and environmental management systems influence the impact of foreign direct investment (FDI) on carbon emissions? 4. What lessons can be learned from other countries or regions that have successfully implemented strategies to reduce carbon emissions while promoting economic growth? 5. Are there emerging technologies or innovative solutions that have the potential to significantly mitigate carbon emissions in Kenya, and what are the barriers to their adoption? 6. How can Kenya effectively integrate environmental considerations into its economic development strategies to ensure sustainable growth and mitigate the adverse effects of carbon emissions? 7. What specific policies and regulations should policymakers implement to incentivize businesses in Kenya to adopt cleaner production methods and reduce their carbon footprint? 8. What role can international cooperation and partnerships play in supporting Kenya's efforts to address climate change and reduce carbon emissions? 9. How can public awareness and education campaigns be enhanced to promote environmental conservation and sustainable development practices in Kenya? 10. What potential economic benefits are associated with transitioning towards a low-carbon economy in Kenya, and how can these benefits be maximized? 11. How should Kenya monitor and evaluate the effectiveness of implemented strategies to ensure progress toward achieving its carbon emission reduction targets? 	

Review Form 1.7

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
