

Review Form 1.7

Journal Name:	Journal of Advances in Mathematics and Computer Science
Manuscript Number:	Ms_JAMCS_115155
Title of the Manuscript:	Common Fixed-Point of Dass-Gupta Rational Contractions and E-Contractions
Type of the Article	Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

Review Form 1.7

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>This paper contains useful results and has the potential to encourage further research in fixed point theory and applications.</p> <p>The title of the work needs to be rechecked for typos.</p> <p>The abstract is comprehensive; it only requires minor corrections.</p> <p>Yes</p> <p>Yes</p> <p>The following are the suggested additional references;</p> <p>Sirajo, Y. (2021). Common fixed points of contraction mapping in metric space. Pan-American Journal of Mathematics, 31(1), 73-82.</p> <p>Shagari et. al (2019). Common fixed points of L-fuzzy Maps for Meir-keeler type contractions. J. Adv. Math. Stud., 12(2), 218-229.</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	Yes	
<p>Optional/General comments</p>	<p>Dear Editor, I have carefully checked the manuscript titled above and the following are my comments.</p> <p>1. The authors provided common fixed point results of Dass-Gupta Rational Contraction and E-contraction in the settings of super metric space. 2. The authors should introduce a few more results. 3. Grammar should be checked. 4. Literature should be improved. 5. Therefore, I recommend this work for publication after incorporating the above minor corrections.</p>	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Are there ethical issues in this manuscript?</p>	<p><i>(If yes, Kindly please write down the ethical issues here in details)</i></p>
