If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>1. Its not really important since there are many the similar article that already published</p> <p>2. The title is too simple (Study of the effect of using soybean oil on air emissions realised from diesel engine performance)</p> <p>3. The abstract is too general</p> <p>4. Basically, the sub-chapters in the article are suitable but the content is not detailed and lacks depth</p> <p>5. The contents of the manuscript presented are too basic and the aspects studied lack variations in treatment so that the conclusions can be predicted</p> <p>6. There are very few written references, and this illustrates that references related to this topic are not reviewed objectively. So the state of the art presented is inadequate</p>	
<p><b>Minor</b> REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>1. The language/English fairly good</p>	
<p><b>Optional/General</b> comments</p>	<p>The articles written do not discuss many aspects comprehensively</p>
