

**Review Form 3**

Journal Name:	<b>Journal of Geography, Environment and Earth Science International</b>
Manuscript Number:	<b>Ms_JGEESI_120865</b>
Title of the Manuscript:	<b>Geotechnical Assessment of Seismic Vulnerability in the Built Environment of Fako Division, South West Region-Cameroon</b>
Type of the Article	

**Review Form 3**

**PART 1: Review Comments**

<b>Compulsory</b> REVISION comments	<b>Reviewer's comment</b>	<b>Author's Feedback</b> (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Please write few sentences regarding the importance this manuscript for scientific community. Why do you like (or dislike) this manuscript? Minimum 3-4 sentences may be required for this part.</b>	This study is important for the local community as it contributes to knowing the expected dangers of earthquakes and taking measures to reduce the damage resulting from it. In addition, it provides the scientific community with a database and a modus operandi to benefit from in other regions.	
<b>Is the title of the article suitable? (If not please suggest an alternative title)</b>	yes	
<b>Is the abstract of the article comprehensive? Do you suggest addition (or deletion) of some points in this section? Please write your suggestions here.</b>	The abstract should not include any secondary title, contain no discussion, no results, and be free from any references. It should include a brief introduction to the importance of the research topic, its objective and the means used to accomplish it with the most important results obtained	
<b>Are subsections and structure of the manuscript appropriate?</b>	yes	
<b>Please write few sentences regarding the scientific correctness of this manuscript. Why do think that this manuscript is scientifically robust and technically sound? Minimum 3-4 sentences may be required for this part.</b>	<b>The researcher has used the correct scientific methods, which include tests and the selection of sampling sites in addition to choosing the study area as well as using appropriate means and mathematical equations to perform the required calculations. Moreover, using the data available in the old and recent scientific literature.</b>	
<b>Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</b> -	yes	
<b>Minor</b> REVISION comments  <b>Is language/English quality of the article suitable for scholarly communications?</b>	Few errors and corrected	
<b>Optional/General</b> comments		

**PART 2:**

	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Are there ethical issues in this manuscript?</b>	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
