(If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>1. The manuscript offers a through and insightful analysis, drawing on specific passages to support its claims. However, its data and conclusions are important for a limited scientific community and in particular for those researchers who would wish to carry out comparative research and analysis in other areas of the Indian interior.</p> <p>2. The title of the article is suitable and relevant to its content.</p> <p>3. The abstract is not as comprehensive as it should be and it needs condensation and correction.</p> <p>4. The subsections and structure of the manuscript are appropriate.</p> <p>5. I find it scientifically correct and comprehensive.</p> <p>6. All the references cited relevant and adequate.</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>Undoubtedly yes.</p>	
<p>Optional/General comments</p>	<p>Overall, this manuscript is a valuable resource for understanding the regional disparities in the distribution of the female literacy rate and the juvenile sex ratio in Nashik district. It is recommended for anyone interested to carry out comparative research and analysis in other areas of Indian interior and moreover analyse in depth the main factors that influence the female literacy in Nashik district. Moreover, was selected the suitable technical tool for the export of the results, providing sufficient details of the process. The data are well controlled and robust and conclusions are based on actual facts and figures through the manuscript.</p>
