

Review Form 1.7

| | |
|--------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------|
| Journal Name: | Asian Journal of Fisheries and Aquatic Research |
| Manuscript Number: | Ms_AJFAR_119897 |
| Title of the Manuscript: | Effect Of Macroalgae Feed Type on Abalone Growth and Survival (Haliotis Squamata) On The Cultivation System Polyculture With Nemo Fish (Clownfish) |
| Type of the Article | |

PART 1: Review Comments

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>Compulsory REVISION comments</p> <ol style="list-style-type: none"> 1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript) 2. Is the title of the article suitable? (If not please suggest an alternative title) 3. Is the abstract of the article comprehensive? 4. Are subsections and structure of the manuscript appropriate? 5. Do you think the manuscript is scientifically correct? 6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p> | <ol style="list-style-type: none"> 1. It deals with polyculture feeding systems. The research is of interest and the results are novel. 2. Yes 3. Yes 4. Yes 5. Yes 6. They must standardize the method of citation, it is neither adequate nor homogeneous | |
| <p>Minor REVISION comments</p> <ol style="list-style-type: none"> 1. Is language/English quality of the article suitable for scholarly communications? | <p>The scientific names of the sp. should be reviewed, in italics and capitalize only the first letter. Review full stops and capitalization. Check the letters and numbers in the figures.</p> | |
| <p>Optional/General comments</p> | <p>The article is interesting, and its conclusions express the fulfilment of objectives. However, the citation is neglected in the sessions, numbers or names are used. There are parts where punctuation marks are missing. The figures should contain more data on the supraindices, explaining what they mean. e.g different letters are significant differences according to Ducan... the same as the numbers, average values, EE, DE.</p> | |
