#### PART 1: Review Comments

<u>Compulsory REVISION comments</u>	Reviewer's comment	Author's Feedback( <i>Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here</i> )
<b>Please write few sentences regarding the importance this manuscript for scientific community. Why do you like (or dislike) this manuscript? Minimum 3-4 sentences may be required for this part.</b>	Interesting topic of renal mets in metastatic adenocarcinoma. Very uncommon to see, so appreciate the author's novelty to pick up this topic. They took it further and also made it into a case series. While it may not change management, important for the oncological world to know that renal masses need not always be RCC.	
<b>Is the title of the article suitable? (If not please suggest an alternative title)</b>	Yes	
Is the abstract of the article comprehensive? Do you suggest addition (or deletion) of some points in this section? Please write your suggestions here.	Yes, please re-word conclusion in the abstract, very hard to understand.	
<b>Are subsections and structure of the manuscript appropriate?</b>	Yes	
<b>Please write few sentences regarding the scientific correctness of this manuscript. Why do think that this manuscript is scientifically robust and technically sound?Minimum 3-4 sentences may be required for this part.</b>	Author has defined his case and then 15 other cases with similar findings. This is a rare entity and I appreciate the novelty of this topic and it adds great value to the oncology community	
<b>Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</b>	Yes	
<u>Minor REVISION comments</u> Is language/English quality of the article suitable for scholarly communications?	Grammatical errors, minimal	
<u>Optional/General comments</u>	Great images
