

## Review Form 1.7

Journal Name:	<a href="#">Asian Journal of Environment &amp; Ecology</a>
Manuscript Number:	Ms_AJEE_119948
Title of the Manuscript:	"Review on Fern - A fascinating foliage"
Type of the Article	Review Article

### **General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalajee.com/index.php/AJEE/editorial-policy> )

**Review Form 1.7**

**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)																																										
<p><b>Compulsory</b> REVISION comments</p> <ol style="list-style-type: none"> <li>1. <b>Is the manuscript important for scientific community?</b> (Please write few sentences on this manuscript)</li> <li>2. <b>Is the title of the article suitable?</b> (If not please suggest an alternative title)</li> <li>3. <b>Is the abstract of the article comprehensive?</b></li> <li>4. <b>Are subsections and structure of the manuscript appropriate?</b></li> <li>5. <b>Do you think the manuscript is scientifically correct?</b></li> <li>6. <b>Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</b></li> </ol> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p><b>Yes. It is important for scientific community.</b>  <b>Ferns which are non-flowering plants mostly found in humid areas. These plants show variations in morphological characters which are beneficial to science students. By observing these characters they gain knowledge and develops eco-friendly relationship with nature. Variations in economic importance such as soil conservation, air purification, industry, eco-tourism, agriculture, insecticide, medicine etc. are helpful to society and in scientific area.</b>  <b>2. Yes. It is suitable.</b>  <b>3. Yes. It is comprehensive.</b>  <b>4. Yes. The structure and subsections are appropriate.</b>  <b>5. Yes. It is scientifically correct.</b>  <b>6. References are more than sufficient.</b></p>																																											
<p><b>Minor</b> REVISION comments</p> <ol style="list-style-type: none"> <li>1. <b>Is language/English quality of the article suitable for scholarly communications?</b></li> </ol>	<p>Yes. The language quality is suitable for scholarly communication.</p>																																											
<p><b>Optional/General</b> comments</p>	<p><b>Part 1: Additional suggestions / comments</b></p> <table border="1"> <thead> <tr> <th>S.No.</th> <th>P.No.</th> <th>Comments / Suggestions</th> </tr> </thead> <tbody> <tr> <td>1</td> <td>1</td> <td>Abstract: Space between and as, an ornamental.</td> </tr> <tr> <td>2</td> <td>2</td> <td>Third line of first para after growth and reference.
