

Review Form 3

Journal Name:	Journal of Agriculture and Ecology Research International
Manuscript Number:	Ms_JAERI_120716
Title of the Manuscript:	To study the performance of finger millet varieties in different establishment methods in terms of growth, yield, and quality. (Eleusine coracana L.)
Type of the Article	Research article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

Review Form 3

PART 1: Review Comments

<u>Compulsory</u> REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write few sentences regarding the importance this manuscript for scientific community. Why do you like (or dislike) this manuscript? Minimum 3-4 sentences may be required for this part.	This manuscript is important for scientific community of finger millet who are concerning about varieties and cultural techniques. Climate change is becoming severe worldwide. Therefore study on varieties and cultural techniques is always essential for production in the coming decades.	
Is the title of the article suitable? (If not please suggest an alternative title)	The title of the article is lengthy. Should be "Performance of finger millet varieties (Eleusine coracana L.) in different establishment methods". All studied traits should be stated in sections of introduction and methods.	
Is the abstract of the article comprehensive? Do you suggest addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract of the article is not comprehensive. Suggest: Bring data on studied traits of best combination of transplanting method and CFMV-2, extracted from the descriptions paragraphs in the Table 4, after Table 3.	
Are subsections and structure of the manuscript appropriate?	Subsections and structure of the manuscript are missing one more subsection on significant combinations of varieties and establishment methods (For choosing which combination is best by showing data)	
Please write few sentences regarding the scientific correctness of this manuscript. Why do think that this manuscript is scientifically robust and technically sound? Minimum 3-4 sentences may be required for this part.	This manuscript is scientific correct. However, still missing method of data collection on intended traits and missing statistical software for analysis in the material and method section. Should add one more table of significant combinations between varieties and establishment methods (significant interactions).	
Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. =	The references are not sufficient and recent. Should update references during 2020-2024.	
<u>Minor</u> REVISION comments Is language/English quality of the article suitable for scholarly communications?	English quality of the article is suitable for scholarly communications	
<u>Optional/General</u> comments	What does S mean in the Table 1, 2, and 3?	

Review Form 3

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
