

Editor's Comment:

I finally accepted the manuscript 2024/JSRR/120702.

Some comments, however, should be considered.

And also see the manuscript attached to this email.

Comments

- In Introduction, the reference [72] should be [6]. The reference numbers should appear in order. Re-arrange all reference numbers.
- Introduction is too long. It should be divided into two and make the new section like "2. Ceramic Industry."
- Two Figure 1 exists. Figure 1 in Page 7 should be Figure 2.
- In Page 7, abbreviations of RCRT and CC comes first, and full spelling follow the abbreviations.
- See few checks in Pages 8, 11, and 13.

Editor's Details:

Dr. Masafumi Tateda
Graduate School of Engineering, Toyama Prefectural University, Japan.
