**PART 1: Review Comments**

<b>Compulsory</b> REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	It is important for the scientific community as the subject but the paper is not in a good scientific order since there should be more references for the topics covered in the paper. Related studies should be added to support the ideas given. The references are up to date, which is good and necessary.	
Is the title of the article suitable? (If not please suggest an alternative title)	YES	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Fine but, in my opinion, it can be a little more comprehensive.	
Are subsections and structure of the manuscript appropriate?	Yes but each subsection should be enriched with more references.	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	<p>I think it is not so correct:</p> <ol style="list-style-type: none"> <li>1. The abstract should be more comprehensive.</li> <li>2. An appropriate literature review part should be added.</li> <li>3. It may be added some visuals on PPT.</li> <li>4. For example, for each subsection some visuals and literature may be added:</li> </ol> <p><b>2.2 PPT has a dynamic presentation effect</b></p> <p>PPT has the function of presenting animation effects, which can show dynamically changing content [<b>Error! Reference source not found.</b>]. PPT has a variety of object animations, among which there are different types of animation styles. Users can get different animation effects by selecting different animation styles in the process of designing PPT. Therefore, PPT can be designed with various dynamic effects according to users' wishes to better attract viewers' attention and interest. I MEAN THIS PARAGRAPH, FOR EXAMPLE, LIKE THE OTHERS, SHOULD BE ENRICHED VIA VISUALS AND/OR INFORMATION FROM THE LITERATURE.</p>	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Yes	
<u>Minor</u> REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?	Yes
