

Review Form 1.8

Journal Name:	Journal of Advances in Biology & Biotechnology
Manuscript Number:	Ms_JABB_120124
Title of the Manuscript:	MORPHOLOGICAL CHARACTERIZATION AND DIVERSITY ANALYSIS IN MAIZE (ZEA MAYS L.)
Type of the Article	Research

Review Form 1.8

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Is the manuscript important for scientific community? (Please write few sentences regarding this manuscript to justify your answer)	Yes, it's good for scientific society and help the researchers who are working on maize crop to utilize knowledge of inbred lines to study mapping, genetic variation, hybrid vigour and in other breeding programmes for the betterment of maize.	
Is the title of the article suitable? (If not please suggest an alternative title)	MORPHOLOGICAL CHARACTERIZATION AND DIVERSITY ANALYSIS IN INBRED LINES OF MAIZE (ZEA MAYS L.)	
Is the abstract of the article comprehensive?	Mention method of study, place and duration of study. Aim of study concise results Findings/conclusion Improve language	
Are subsections and structure of the manuscript appropriate?	Yes, these are appropriate	
Do you think the manuscript is scientifically correct? (Please write few sentences regarding this manuscript to justify your answer)	Its correct, but in the material and method section Correlation coefficient analysis, Path coefficient analysis are mentioned but It is not observed in the paper (results and discussion).	
Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.	More References should be added in the introduction and discussion portion. References in the text and at the end of paper should be as per Journal requirement.	
Minor REVISION comments Is language/English quality of the article suitable for scholarly communications?	English language use in the article need to be improved. There is need to rephrase sentences so that reader can understand.	
Optional/General comments	English language need to be improved use punctuation where required. Add conclusion/outcome of study and how this study helpful for future breeding programs in the paper.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
