

Review Form 3

Journal Name:	Journal of Pharmaceutical Research International
Manuscript Number:	Ms_JPRI_120216
Title of the Manuscript:	Palliative Care Knowledge, Among Physicians in King Abdullah Medical City, Makkah, Saudi Arabia, 2024, Cross Section Study
Type of the Article	

Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write few sentences regarding the importance this manuscript for scientific community. Why do you like (or dislike) this manuscript? Minimum 3-4 sentences may be required for this part.		
Is the title of the article suitable? (If not please suggest an alternative title)		
Is the abstract of the article comprehensive? Do you suggest addition (or deletion) of some points in this section? Please write your suggestions here.		
Are subsections and structure of the manuscript appropriate?		
Please write few sentences regarding the scientific correctness of this manuscript. Why do think that this manuscript is scientifically robust and technically sound? Minimum 3-4 sentences may be required for this part.		
Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.		

Review Form 3

<p>Minor REVISION comments</p> <p>Is language/English quality of the article suitable for scholarly communications?</p>		
<p>Optional/General comments</p>	<ol style="list-style-type: none">1- Provide more details on the ROA software used for sample size calculation.2- Clarify the rationale for selecting specific departments (oncology, hematology, emergency) and excluding others.3- Discuss any potential biases or limitations in the study design and how they were addressed.4- Include a more detailed analysis of the demographic characteristics and their potential impact on the results.5- Provide a deeper interpretation of the statistical correlations found, linking them to existing literature and theoretical frameworks.6- Consider adding visual aids (e.g., graphs, charts) to enhance the presentation of the results.7- Expand on the practical implications of the findings for palliative care practice and education in Saudi Arabia.8- Statistical significance will be assessed using a significance level of $P < 0.05$ and a confidence range of 95%." Change "will be" to "was" for consistency.9- Line 23: "as the World Health Organization (WHO) defines palliative it's the specialty..." Consider rephrasing for clarity, e.g., "as defined by the World Health Organization (WHO), palliative care is the specialty that..."10- Table 2: Clarify what "Count %" refers to, and ensure consistency in presenting statistical data.11- "Knowledge is associated with age, educational attainment, and belief in the end-of-life." Rephrase for clarity, e.g., "Knowledge levels are associated with age, educational attainment, and beliefs about end-of-life care."12- Discuss following articles:<ol style="list-style-type: none">I- Habibollahi P, Shams Vahdati S, Karzad N, Gholzari S, Poureskandari M. Evaluation of pain relief in trauma patients and patients' satisfaction.
