

Review Form 3

Journal Name:	Microbiology Research Journal International
Manuscript Number:	Ms_MRJI_120755
Title of the Manuscript:	Efficiency of EMB Medium Combined with MALDI-TOF in Isolating and Identifying Coliform Lactose Fermenters and Non-Lactose Fermenters from Wastewater
Type of the Article	Research paper

Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write few sentences regarding the importance this manuscript for scientific community. Why do you like (or dislike) this manuscript? Minimum 3-4 sentences may be required for this part.	The current article is scientifically important because it addresses a very important problem for the scientific community and contains a new method to detect and identify human pathogen bacteria	
Is the title of the article suitable? (If not please suggest an alternative title)	In my opinion I want to change the manuscript title to (estimation of efficiency EMB Medium Combined with MALDI-TOF in Isolating & Identifying Coliform Lactose Fermenters and Non-Lactose Fermenters from Wastewater	
Is the abstract of the article comprehensive? Do you suggest addition (or deletion) of some points in this section? Please write your suggestions here.	Authors need more explanation about the abstract in a precise manner Author need to re arrange the abstract in (background , aim of study , result , conclusion)	
Are subsections and structure of the manuscript appropriate?	subsections and structure of the manuscript are appropriate in this manuscript	
Please write few sentences regarding the scientific correctness of this manuscript. Why do think that this manuscript is scientifically robust and technically sound? Minimum 3-4 sentences may be required for this part.	In my personal opinion the article is good in scientific terms because it addresses a very important topic in terms of contamination of drinking water with sewage water, as this study will open up new orientations in the detection of bacteria contaminated with drinking water in the future	
Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.	Author need to add more references to support his opinion	
Minor REVISION comments		
Is language/English quality of the article suitable for scholarly communications?	English quality of the article are suitable for scholarly communications	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
