

Review Form 1.7

Journal Name:	Asian Journal of Chemical Sciences
Manuscript Number:	Ms_AJOCS_119359
Title of the Manuscript:	EVALUATION OF THE PHYTOCHEMICAL AND ELEMENTAL COMPOSITION OF Andrographic paniculata LEAVES
Type of the Article	Research

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>Yes</p> <p>Yes</p> <p>No</p> <p>Yes</p> <p>Yes</p> <p>Yes</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>No</p>	
<p>Optional/General comments</p> <p>1)</p>	<p>1) The entire article needs grammar correction and formatting</p> <p>2) The name of the plant is Andrographis paniculata. But the authors have mentioned it as Andrographic paniculata throughout the article. Mistakes like this should be avoided. Providing plant authentication is needed.</p> <p>3) Abstract has to be rewritten to be more informative.</p> <p>4) In introduction- 3rd paragraph, sentence should be written as Andrographis Paniculata is a medicinal plant traditionally used as anti-inflammatory and anti-bacterial herb</p> <p>5) Detailed methodologies adopted should be given in the materials and methods section.</p> <p>6) The details of the statistical analysis should be given after the phytochemical result table. i.e Mean \pm SD.</p> <p>7) The manuscript needs alignment check and unnecessary use of italics must be avoided except for plant names.</p> <p>8) Discussion can be modified to include the well known benefits of this plant and the roles phytochemicals play in it.</p>
