Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Is the manuscript important for scientific community? (Please write few sentences regarding this manuscript to justify your answer)	It is important for those working on nutritional composition and their exploitation for human health.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes	
Is the abstract of the article comprehensive?	Need to redraft the abstract with more clarity. Add conclusion of the study at the end of abstract.	
Are subsections and structure of the manuscript appropriate?	Put result and discussion part separate by giving headline.	
Do you think the manuscript is scientifically correct? (Please write few sentences regarding this manuscript to justify your answer)	Need to rewrite some sentences in a better way as indicated in the manuscript.	
Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.	References are sufficient and some are recent ones. However, citation in the text and references are not followed any sequences. Required to rewrite the references in correct sequence.	
Minor REVISION comments		
Is language/English quality of the article suitable for scholarly communications?	Some sentences are not related to topic, kindly delete them. I found lot of spelling and grammatical mistakes. The authors need to correct it.	
Optional/General comments	Cite the references in materials and methods for extraction procedure followed. Result and discussion part is little bit confusing to the readers. Make it clear and add more about your work rather than mentioning others study. Authors have mentioned more about pharmaceutical uses in result and discussion part. Whether you have studied this? In conclusion, focus more about findings/outcomes of your study, do not give general statements.
