Type of the Article	Original Research Article

Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.</p>	<p>As the incidence of Bee stinging is very high, its consequences are life threatening so it must be addressed to scientific society, publically. The nationwide programmes for prevention of Bee stinging events should be prepared & implemented by government, NGOS, scientific organizations & policy makers.</p>	
<p>Is the title of the article suitable? (If not please suggest an alternative title)</p>	<p>Title INCREASING INCIDENCE OF BEE STINGING IN BRAZIL AN EPIDEMIOLOGICAL STUDY, is better as the number of bee stinging cases are increasing.</p>	
<p>Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.</p>	<p>Abstract is structure but should mention statistical figures regarding incidence, mortality rate , morbidity rate , any government/NGO programmes, implemented , run .A note regarding its awareness should be there .</p>	
<p>Are subsections and structure of the manuscript appropriate?</p>	<p>Subsections & structure of Ms is appropriate.</p>	
<p>Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.</p>	<p>As the incidence of Bee stinging is very high, its consequences are life threatening so it must be addressed to scientific society, publically. For prevention of bee stinging & its treatment guidelines should be made available to all health professionals of remote areas.</p>	
<p>Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form. :</p>	<p>References are so many, there should be references for incidence, mortality rate, morbidity rate, any policies of government nt or NGOS for its prevention & reducing mortality & morbidity. Number of references should be less, 15 to 20 sufficient covering important things.</p>	
<p>Minor REVISION comments</p> <p>Is the language/English quality of the article suitable for scholarly communications?</p>	<p>Yes language is suitable.</p>	
<p>Optional/General comments</p>	<p>Reduce the number of references & give important references as above mentioned. Government policy makers should form standard treatment guidelines for Bee stinging accidents & its prevention.</p>
