

### Review Form 3

Journal Name:	<a href="#">Journal of Materials Science Research and Reviews</a>
Manuscript Number:	<b>Ms_JMSRR_120835</b>
Title of the Manuscript:	<b>Molecular docking, ADMET and DFT, investigation of the prostate cancer inhibition potential of Cinnamomum zeylanicum</b>
Type of the Article	<b>Original research paper</b>

#### **General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

<https://r1.reviewerhub.org/general-editorial-policy/>

#### **Important Policies regarding Peer Review**

Peer review Comments Approval Policy: <https://r1.reviewerhub.org/peer-review-comments-approval-policy/>

Benefits for Reviewers: <https://r1.reviewerhub.org/benefits-for-reviewers>

### Review Form 3

#### **PART 1:** Review Comments

<b>Compulsory</b> REVISION comments	<b>Reviewer's comment</b>	<b>Author's Feedback</b> (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write few sentences regarding the importance this manuscript for scientific community. Why do you like (or dislike) this manuscript? Minimum 3-4 sentences may be required for this part.	The research work focuses on discovering potential of the intended herb for anticancer activity limited to insilico studies which can further be explored & justified with invitro & invivo analysis making it crucial for the scientific enthusiasts to elicit new developments in cancer treatments. The manuscript is quite informative if its scope is explored in depth.	
Is the title of the article suitable? (If not please suggest an alternative title)	The title can be rephrased with more appropriateness. Suggested one "Molecular docking, ADMET & DFT predictions of <i>Cinnamomum zylanicum</i> for prostate cancer inhibition".	
Is the abstract of the article comprehensive? Do you suggest addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract could be more comprehensive by shortening the methodology & addressing the problem statement along with comparison of previous studies for more detailing.	
Are subsections and structure of the manuscript appropriate?	The structure of manuscript should be redesigned with primary focus on tables & figures. Spellings of scientific terms should be corrected.	
Please write few sentences regarding the scientific correctness of this manuscript. Why do think that this manuscript is scientifically robust and technically sound? Minimum 3-4 sentences may be required for this part.	As insilico predictions are widely utilized for preliminary analysis of compounds for their biological activity which complies with the scientific discoveries. Thus this article gives insights onto the potential of plant herb against prostate cancer with informative data which scientifically becomes acceptable. Hence, the work shows robustness & technicality to an extent.	
Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.	References should be reframed in compliance with the format given by the journal.	
<b>Minor</b> REVISION comments  Is language/English quality of the article suitable for scholarly communications?	The article is readable with clear understanding of the language but the terms should be rechecked for spellings.	
<b>Optional/General</b> comments	The comments have been mentioned in the article for correctness at several sections to look out for & content should be refined wherever possible for its presentation.	

### Review Form 3

#### **PART 2:**

	<b>Reviewer's comment</b>	<b>Author's comment</b> <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<b>Are there ethical issues in this manuscript?</b>	<i>(If yes, Kindly please write down the ethical issues here in details)</i>	

#### **Reviewer Details:**
