

Review Form 3

Journal Name:	Asian Journal of Advanced Research and Reports
Manuscript Number:	Ms_AJARR_120564
Title of the Manuscript:	Public Perception of Radio Programmes on Parental Sexual Abuse on Children: A Study of Residents of Owerri Metropolis
Type of the Article	Survey study

Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<p>Please write few sentences regarding the importance this manuscript for scientific community. Why do you like (or dislike) this manuscript? Minimum 3-4 sentences may be required for this part.</p>	<p>This manuscript is significant for the scientific community as it addresses a critical social issue—parental sexual abuse of children—within the context of Nigerian society. It provides empirical data on public perception of radio programs addressing this topic, which can help in understanding the effectiveness of media in raising awareness and influencing behavior. I appreciate this manuscript because it highlights the gap between media efforts and public awareness, suggesting actionable recommendations for enhancing the impact of such programs. However, the study's limitation lies in its geographical focus, which may not be generalizable to other regions without further research.</p>	
<p>Is the title of the article suitable? (If not please suggest an alternative title)</p>	<p>No , the title needs modification</p> <p>The current title, "Public Perception of Radio Programmes on Parental Sexual Abuse on Children: A Study of Residents of Owerri Metropolis," is informative but could be more concise and engaging.</p> <p>An alternative title could be: "Evaluating Radio's Role in Addressing Parental Sexual Abuse: Insights from Owerri Metropolis".</p>	
<p>Is the abstract of the article comprehensive? Do you suggest addition (or deletion) of some points in this section? Please write your suggestions here.</p>	<p>Suggestions for the Abstract:</p> <ol style="list-style-type: none"> 1. Introduction of Study Context: Add a brief mention of the study's context and significance to make it clear why this research is important. 2. Clarification and Precision: Make the language more precise and concise. 3. Key Findings Highlight: Emphasize key findings and their implications more clearly. 4. Recommendations: Ensure recommendations are succinctly stated. <p>These changes will make the abstract more comprehensive and informative.</p>	
<p>Are subsections and structure of the manuscript appropriate?</p>	<p>The subsections and structure of the manuscript could benefit from better organization. Including distinct sections for methodology, results, discussion, and conclusion would enhance clarity and readability.</p> <p>There are grammatical errors which needs to be added.</p>	
<p>Please write few sentences regarding the scientific correctness of this manuscript. Why do think that this manuscript is scientifically robust and technically sound? Minimum 3-4 sentences may be required for this part.</p>	<p>This manuscript demonstrates scientific correctness through its systematic approach, including the use of a well-defined theoretical framework (Agenda Setting Theory) and a clear methodology. The sample size was appropriately calculated using the Taro Yamane formula, ensuring statistical relevance. Data collection via questionnaires and analysis using percentage and mean methods are standard practices that enhance the study's reliability. These elements collectively contribute to the manuscript's scientific robustness and technical soundness.</p>	
<p>Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>=</p>	<p>The references in the manuscript appear to be insufficient and may benefit from the inclusion of more recent studies. To enhance the depth and currency of the research, consider adding the following references:</p> <ol style="list-style-type: none"> 1. Finkelhor, D., & Korbin, J. E. (2018). Child Abuse as an International Issue. <i>Child Abuse & Neglect</i>, 2(1), 3-23. 2. Mathews, B., & Collin-Vézina, D. (2019). Child Sexual Abuse: Toward a Conceptual Model and Definition. <i>Trauma, Violence, & Abuse</i>, 20(2), 131-148. 3. Alaggia, R., Collin-Vézina, D., & Lateef, R. (2019). Facilitators and Barriers to Child Sexual Abuse (CSA) Disclosures: A Research Update (2000-2016). <i>Trauma, Violence, & Abuse</i>, 	

Review Form 3

	20(2), 260-283.	
Minor REVISION comments		
Is language/English quality of the article suitable for scholarly communications?	Few grammatical errors need to be addressed	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<p><i>(If yes. Kindly please write down the ethical issues here in details)</i></p> <p>The manuscript does not explicitly mention any ethical issues, which is a concern given the sensitive nature of the topic—parental sexual abuse of children. Here are a few ethical considerations that should be addressed:</p> <ol style="list-style-type: none"> Informed Consent: Ensure that all participants provided informed consent before participating in the study. Confidentiality: The manuscript should detail how participant confidentiality and anonymity were maintained. Ethical Approval: Mention if the study received ethical approval from a relevant ethics committee or institutional review board. Sensitive Handling: Given the sensitive subject matter, it's important to outline how the study handled the potential psychological impact on participants discussing or recalling traumatic events. <p>Addressing these points will strengthen the ethical integrity of the research.</p>
