PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	The authors presented a case report of sclerosing encapsulating peritonitis. This pathology is very rare and in some countries the most common cause is peritoneal dialysis. The authors adequately present the case with very good photos. Also, their surgical work is excellent because in such cases is very easy to perforate bowel during releasing from adhesions. Every experience from such demanding cases is important. According to me this article is valuable for publication.
