

Editor's Comment:

After perusal of the revised manuscript as per the recommendations of the reviewers, I hereby recommend ACCEPTANCE of paper for publication considering the ff.

1. State if the normality test was performed since ANOVA was used, a parametric test, it requires that the data is drawn from a normally distributed population, otherwise, use the nonparametric Kruskal-Wallis (H) test.
2. Subject the paper to stylistics and editing as well proofreading for grammar checking.
