#### PART1:ReviewComments

<b>Compulsory</b> REVISIONcomments	<b>Reviewer's</b> comment	<b>Author'sFeedback</b> (Pleasecorrectthemanuscriptandhighlightthatpartinthemanuscript.Itismandatorythatauthorsshouldwritehis/herfeedbackhere)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	This study is important because it consisted of an exhaustive study aimed at evaluating the influence of granulometry and certain soil nutrients on maize productivity in certain regions in India	
Is the title of the article suitable? (If not please suggest an alternative title)	the title of the article suitable	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract is comprehensive but the author should synthesize it	
Are subsections and structure of the manuscript appropriate?	Yes it is appropriate but the author should add the data analysis paragraph after Method	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	The manuscript is scientifically robust because, it demonstrates that high productivity soils have a denser texture with higher clay content, which can impact water retention and nutrient availability, important factors for plant growth and soil management practices.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form. -	the references are sufficient and correctly cite	
<b>Minor</b> REVISIONcomments Is the language/English quality of the article suitable for scholarly communications?	English quality of the article is suitable for article	
<b>Optional/General</b> comments	My comment is that this article should be published if the author adds the appropriate statistical tests.
