

Review Form 3

Journal Name:	Journal of Advances in Biology & Biotechnology
Manuscript Number:	Ms_JABB_120609
Title of the Manuscript:	Enhancing Crop Resilience: The Role of Participatory Plant Breeding
Type of the Article	

Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write few sentences regarding the importance this manuscript for scientific community. Why do you like (or dislike) this manuscript? Minimum 3-4 sentences may be required for this part.	Global warming and climate change pose serious concerns. Therefore, crops must adapt to the changing environment in order to feed an increasingly hungry population. In this context, the present review work is essentially important. This review provides a detailed discussion on the importance of enhancing crop plant resilience, with a particular emphasis on participatory plant breeding. In this regard, the present manuscript caught my attention.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes, suitable	
Is the abstract of the article comprehensive? Do you suggest addition (or deletion) of some points in this section? Please write your suggestions here.	The article's abstract is not comprehensive. The article should adhere to the author guidelines provided on the journal's website. There is a lack of numerical data here. Despite being a review article, it does not contain any original research. Therefore, it should use globally reviewed data.	
Are subsections and structure of the manuscript appropriate?	Yes,	
Please write few sentences regarding the scientific correctness of this manuscript. Why do think that this manuscript is scientifically robust and technically sound? Minimum 3-4 sentences may be required for this part.	As it is a review article, the authors substantially used some subsections that match a perfectly written review article. We know that a scientific review article must include an introduction, body (sub-tropics being addressed), and conclusion. In respect of the above-mentioned subject the manuscript of the review article might be called scientifically robust and technically sound.	
Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.	The references are recent and sufficient, but all the references are not presented in accordance with the journal guideline.	
Minor REVISION comments		
Is language/English quality of the article suitable for scholarly communications?	Yes, suitable	
Optional/General comments	N/A	

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
