PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	The article provides a review of the applications of 3D point cloud. It provides insight from the initiation of the technology till the recent application. It also summarizes the challenges of the technology.	
Is the title of the article suitable? (If not please suggest an alternative title)	yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	It sufficiently provides a gist of the article.	
Are subsections and structure of the manuscript appropriate?	Subsection 4 could be elaborated	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	A 3D point cloud represents the complete outer surface of an object in 3D coordinate system. This manuscript provides an overview of the applications of the said technology. This manuscript could be taken as reference for researchers working on any of the applications. However, the implementation techniques could be elaborated.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Yes	
<u>Minor</u> REVISION comments Is the language/English quality of the article suitable for scholarly communications?	Yes	
<u>Optional/General</u> comments	Formatting as per the journal requirements could be taken care
