PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write few sentences regarding the importance this manuscript for scientific community. Why do you like (or dislike) this manuscript? Minimum 3-4 sentences may be required for this part.	Currently, the sericulture industry, in a broad sense, is extremely low mechanized and 70% based on manual labor. therefore, scientific research aimed at the mechanization of the industry and the introduction of artificial intelligence into it is extremely relevant, which is what the presented review manuscript is aimed at.	
Is the title of the article suitable? (If not please suggest an alternative title)	The title of the article fits the topic of the study	
Is the abstract of the article comprehensive? Do you suggest addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract of the manuscript is comprehensive	
Are subsections and structure of the manuscript appropriate?	The subsections correspond to the structure of the manuscript	
Please write few sentences regarding the scientific correctness of this manuscript. Why do think that this manuscript is scientifically robust and technically sound? Minimum 3-4 sentences may be required for this part.	This manuscript is scientifically reliable and correct, as it provides an overview of the results achieved earlier by other authors of scientific research published in scientific journals.	
Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. -	The links are fresh, but their number is not enough	
Minor REVISION comments		
Is language/English quality of the article suitable for scholarly communications?	The quality of the article is suitable for scientific publications in English	
Optional/General comments	What does the phrase "Sericulture derives from "Su" (Si)" mean? For the review manuscript, the use of nine sources of information on the specific application of artificial intelligence in sericulture is extremely small.
