

**Review Form 3**

Journal Name:	<b>Asian Journal of Soil Science and Plant Nutrition</b>
Manuscript Number:	<b>Ms_AJSSPN_121251</b>
Title of the Manuscript:	<b>Unravelling the Dynamics of Soil Health: Key Insight and Future Direction</b>
Type of the Article	<b>Review Article</b>

**Review Form 3**

**PART 1: Review Comments**

<b>Compulsory</b> REVISION comments	<b>Reviewer's comment</b>	<b>Author's Feedback</b> (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.</b>	Liked - The study focuses on soil health is crucial for sustainable agriculture. Tillage and organic farming can improve soil health by increasing microorganism activity. Conservation tillage can increase profitability by reducing inputs and labor costs. Beneficial microbes, nematodes, cyanobacteria, and arbuscular mycorrhizal fungus improve plant water and nutrient availability, enhancing plant resilience to environmental challenges is discussed. <b>quantification of all above parameters not discussed in detail</b>	
<b>Is the title of the article suitable? (If not please suggest an alternative title)</b>	<b>yes</b>	
<b>Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.</b>	<b>yes</b>	
<b>Are subsections and structure of the manuscript appropriate?</b>	<b>yes</b>	
<b>Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.</b>	The context not provided answer to any specific equations how these qualities are measured and what is the ideal range for soil health indicators Soil as a dynamic interface for soil health and quality – the context does not provide enough information to understand this section.	
<b>Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.</b> -	yes	
<b>Minor</b> REVISION comments		
<b>Is the language/English quality of the article suitable for scholarly communications?</b>	yes	
<b>Optional/General</b> comments	the review highlights the importance of a comprehensive, multi-faceted approach to assessing and managing soil health for sustainable crop production	

**PART 2:**

	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Are there ethical issues in this manuscript?</b>	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
