PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write few sentences regarding the importance this manuscript for scientific community. Why do you like (or dislike) this manuscript? Minimum 3-4 sentences may be required for this part.	The manuscript describes in detail the Multi-Dimensional Scaling (MDS) method. This method can be widely applied in various scientific research, especially in the field of agriculture. I regret that, in the manuscript, the authors did not give a specific example of applying the MDS method in a certain study?	
Is the title of the article suitable? (If not please suggest an alternative title)	The title of the article should be changed to: Multidimensional scaling method and some practical applications	
Is the abstract of the article comprehensive? Do you suggest addition (or deletion) of some points in this section? Please write your suggestions here.	Good	
Are subsections and structure of the manuscript appropriate?	Acceptable	
Please write few sentences regarding the scientific correctness of this manuscript. Why do think that this manuscript is scientifically robust and technically sound? Minimum 3-4 sentences may be required for this part.	The authors describe the MDS method in great detail, including the use of probability and statistics. And there are some demonstrations for the application of these probabilities and statistics, but they only stop at the level of describing the results. Within the framework of this article, the description is also very good.	
Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.	Good	
Minor REVISION comments		
Is language/English quality of the article suitable for scholarly communications?	Good	
Optional/General comments	I appreciate this manuscript
