

**Editor's Comment:**

Approved. It is an excellent paper

1. Title: Global Warming in Interaction with Domestic and foreign Investment- The Indian Case Study
2. A couple of the Indian Supreme Court's precedents are advisable to implement in the paper, but very briefly, adding a plus value to the paper (Vodafone's Case, A B Andolan's Case, Ram Jethmalani & Others v Union of India & Ors)
3. The abstract, which is too lengthy for an abstract, must be contextualised in 10-12 lines with its key words
4. A Conclusion and Recommendations (section V) are highly recommended.
