

Review Form 3

Journal Name:	Asian Journal of Medicine and Health
Manuscript Number:	Ms_AJMAH_120808
Title of the Manuscript:	Realization of an osteological montage of domestic animals at the Museum of Anatomy of the Inter-State School of Veterinary Sciences and Medicine of Dakar
Type of the Article	Research article (Gross Anatomy)

Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<p>Please write few sentences regarding the importance this manuscript for scientific community. Why do you like (or dislike) this manuscript? Minimum 3-4 sentences may be required for this part.</p>	<p>In the present work, authors prepared skeleton of 11 different species included all major domestic animals. Bones and mounted skeleton of different domestic species is necessary to teach gross anatomy in the students of first year practical class room and also to establish veterinary anatomy museum. It is also important to study comparative anatomy of different domestic species. Thus, this article may be useful to learning osteology for anatomy students and veterinary practitioners. In addition, method used to mount skeleton can be helpful for other anatomist.</p>	
<p>Is the title of the article suitable? (If not please suggest an alternative title)</p>	<p style="text-align: center;">-Adequate-</p>	
<p>Is the abstract of the article comprehensive? Do you suggest addition (or deletion) of some points in this section? Please write your suggestions here.</p>	<p style="text-align: center;">-Adequate- -Correct few grammatical mistakes-</p>	
<p>Are subsections and structure of the manuscript appropriate?</p>	<p>There is need to corrections in different subsection as follows:</p> <ul style="list-style-type: none"> • References cited in the text and reference section are not as per journal format • Introduction: Appropriate • Materials and Methods: Appropriate but need to correct grammatically mistakes mention in the manuscript • Results: <ul style="list-style-type: none"> ▪ Need to describe results of mounted skeleton in the text with mentioning figure numbers. ▪ In the photographs properly mention the legends of figures. ▪ Follow guidelines of journal for photographs • Discussion: Results of present work discuss in proper way without used ambiguity words. Follow the journal guideline for mentioning the references. • References: Write references in the correct form 	
<p>Please write few sentences regarding the scientific correctness of this manuscript. Why do think that this manuscript is scientifically robust and technically sound? Minimum 3-4 sentences may be required for this part.</p>	<p>Veterinary anatomy deals with study of the structure and forms of major domestic animals and poultry birds. Skeleton forms a framework of animal body. Bones and skeletons enlighten the structure of particular species that is required to identification of bones of specific species. In this manuscript authors prepared the skeleton of major domestic animals, birds and wild animal that can be useful to study comparative anatomy and also in forensic science (identify bones of different species)</p>	
<p>Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p>	<p>References are sufficient but need to write in correct form as per journal format.</p>	

Review Form 3

Minor REVISION comments Is language/English quality of the article suitable for scholarly communications?	Need to correct grammatically mistakes mention in the manuscript.	
Optional/General comments	This article may be published, if the authors incorporate the suggestions/corrections/justification mentioned in the manuscript and resubmit it in the correct form.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
