

Review Form 3

Journal Name:	Asian Journal of Soil Science and Plant Nutrition
Manuscript Number:	Ms_AJSSPN_121746
Title of the Manuscript:	EFFECT OF INORGANIC FERTILIZER, ORGANIC MANURES AND RHIZOBIUM INOCULATION ON GROWTH AND YIELD OF CLUSTER BEAN (<i>Cyamopsis tetragonoloba</i> L.) Var. Neelam-61
Type of the Article	

Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	This manuscript introduces innovative approaches to enhancing crop productivity by integrating inorganic and organic fertilizers, with a particular focus on cluster bean plants. The study offers valuable insights into how this combined fertilization method can advance both scientific understanding and agricultural practices	
Is the title of the article suitable? (If not please suggest an alternative title)	The title effectively addresses the research question and aligns with the key findings, providing essential information clearly and concisely.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract provides sufficient information, but it should be rephrased to distinguish it from the body paragraphs. Specifically, the methodology section should be made more concise and avoid direct repetition from the main text.	
Are subsections and structure of the manuscript appropriate?	Yes	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	This manuscript demonstrates scientific robustness and technical soundness through its meticulous methodology and thorough analysis. The research design is well-structured, employing rigorous experimental techniques and appropriate statistical methods to ensure the validity and reliability of the results. The manuscript provides clear and accurate data interpretation, supported by relevant literature, which reinforces the credibility of the findings. Overall, the careful attention to detail and adherence to best practices in research contribute to the manuscript's strong scientific foundation.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	The references are adequate and primarily drawn from recent and relevant sources.	
Minor REVISION comments Is the language/English quality of the article suitable for scholarly communications?	The language is clear and accessible; however, some sections, such as the Conclusion, require revisions for improved clarity and coherence.	
Optional/General comments	Overall, the manuscript provides new insights into how combining affordable inputs with organic sources can effectively meet plant nutrient requirements, leading to enhanced growth and yield.
