

Review Form 3

Journal Name:	International Journal of Medical and Pharmaceutical Case Reports
Manuscript Number:	Ms_IJMPCR_120684
Title of the Manuscript:	Tuberculoma: An unusual presentation in a 19yr old Man
Type of the Article	Case report

[Review Form 3](#)

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<p>Please write few sentences regarding the importance this manuscript for scientific community. Why do you like (or dislike) this manuscript? Minimum 3-4 sentences may be required for this part.</p>	<p>This manuscript is important as it allows other researchers to build on this preliminary work which can eventually lead to new discoveries and advancements. Also, the manuscript contributes to the collective knowledge base, promoting evidence-based practices and promoting scientific dialogue.</p>	
<p>Is the title of the article suitable? (If not please suggest an alternative title)</p>	<p>I suggest a slight modification to improve clarity and consistency as: "An Unusual Case of Tuberculoma in a 19-Year-Old Man."</p>	
<p>Is the abstract of the article comprehensive? Do you suggest addition (or deletion) of some points in this section? Please write your suggestions here.</p>	<p>I suggest the following additions and deletions.</p> <p>Additions:</p> <p><i>Patient History:</i> Consider adding any relevant patient history that could provide context, such as past medical history or any known risk factors for tuberculosis.</p> <p><i>Treatment Regimen:</i> Briefly mention the specific treatment regimen used (e.g., types of antitubercular medications) if it adds value to the understanding of the case management.</p> <p>Deletions:</p> <p><i>Redundant Phrases:</i> Remove redundant phrases like "morning headache" mentioned twice.</p> <p><i>Lengthy Descriptions:</i> Shorten overly detailed descriptions if they do not add significant value to the abstract.</p>	
<p>Are subsections and structure of the manuscript appropriate?</p>	<p>Subsections and structure of the manuscript appropriate.</p>	
<p>Please write few sentences regarding the scientific correctness of this manuscript. Why do think that this manuscript is scientifically robust and technically sound? Minimum 3-4 sentences may be required for this part.</p>	<p>This manuscript is crucial for the scientific community as it presents novel findings and insights that can propel further research and understanding in the field.</p>	
<p>Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p>	<p>The references are sufficient and mostly recent.</p>	

Review Form 3

<p>Minor REVISION comments</p> <p>Is language/English quality of the article suitable for scholarly communications?</p>	<p>Proofreading Errors</p> <p>1. Grammar and Spelling Mistakes:</p> <p>Verify subject-verb agreement and consistent tense usage throughout the document.</p> <p>Ensure proper use of articles ("a," "an," "the") and prepositions.</p> <p>Check for common spelling errors and typos (eg. perileisional, leisons), especially for commonly confused words</p> <p>The use of "it's" in the conclusion is wrong, it should be "its".</p> <p>2. Inconsistencies:</p> <p>Ensure consistent use of terminology and style (e.g., if a term is capitalized in one part, it should be capitalized throughout).</p> <p>Verify that all dates, names, and references are consistent and correctly formatted.</p> <p>Ensure the argument or narrative flow is logical and coherent without contradictory statements.</p> <p>The font should be same throughout the text unless explicitly demanded by the journal.</p> <p>3. Typographical Errors:</p> <p>Watch for misplaced punctuation marks, such as commas and periods.</p> <p>Ensure proper spacing between words and after punctuation marks.</p>	
<p>Optional/General comments</p>	<ol style="list-style-type: none"> 1. One additional table should be added where all abbreviations/acronyms used in the manuscript fully explained. Otherwise, the abbreviations could be explained in the current table. 2. Add an arrow to Fig.2 and Fig.3 showing the tuberculomas and site of remission respectively. 3. <i>Mycobacterium tuberculosis</i> is a scientific name and must be written in italics throughout the text. 4. Simplify complex sentences to improve readability. 5. Remove redundant phrases and unnecessary jargon. 6. Use active voice where possible for clearer and more direct sentences. 	

PART 2:

	<p>Reviewer's comment</p>	<p>Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</p>
<p>Are there ethical issues in this manuscript?</p>	<p><i>(If yes, Kindly please write down the ethical issues here in details)</i></p>
