|--------------------------|--|
| Journal Name: | International Journal of Pathogen Research |
| Manuscript Number: | Ms_IJPR_119937 |
| Title of the Manuscript: | Occurrence Of Antibiotic Resistant Escherichia Coli in Ready-To-Eat Edible Larvae Sold Along Emuoha Toll Gate East West Road Port Harcourt |
| Type of the Article | |

PART 1: Review Comments

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|---|--|---|
| <p>Compulsory REVISION comments</p> <ol style="list-style-type: none"> Is the manuscript important for scientific community? (Please write few sentences on this manuscript) Is the title of the article suitable? (If not please suggest an alternative title) Is the abstract of the article comprehensive? Are subsections and structure of the manuscript appropriate? Do you think the manuscript is scientifically correct? Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p> | <ol style="list-style-type: none"> It is an interested subject because this study reflect the quality of RTE edible larvae for people food security. Must be changed, because it is not only to study antibiotic resistance of E. coli. Suggestion: Detection of <i>Escherichia coli</i> in ready-to-eat edible larvae of <i>Rynchophorus phoenicis</i> and their resistance to common antibiotics. Yes, but need improvement. Must of the section requires mayor changes, to be more comprehensive, especially in Results, discussion and Reference sections. Suggestions are Included directly on the manuscript. Yes, the manuscript is scientifically correct. Some references are not used in texts, that must be deleted, and few need to be included. The style to write must of the references requires revision to be uniform. There is a new article that must be included in this manuscript (in the discussion section): Siddiqui SA, Thanpandiyan K, Adli DN, Yudhistira B, , Fernando I, and De Palo P (2024). Overview of the African palm weevil (<i>Rhynchophorus phoenicis</i>) as food and feed – A critical review. Journal of Insects as Food and Feed. Published on line. DOI:10.1163/23524588-00001005. | |
| <p>Minor REVISION comments</p> <ol style="list-style-type: none"> Is language/English quality of the article suitable for scholarly communications? | <ol style="list-style-type: none"> Yes. | |
| <p>Optional/General comments</p> | <p>I made suggestions and some questions directly on the manuscript following track changes option. It must be accepted after major changes attended.</p> | |
