Journal Name:	International Research Journal of Pure and Applied Chemistry
Manuscript Number:	Ms_IRJPAC_120793
Title of the Manuscript:	Study of nature of chemical reactions using pH-meter
Type of the Article	Original Research Article

Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write few sentences regarding the importance this manuscript for scientific community. Why do you like (or dislike) this manuscript? Minimum 3-4 sentences may be required for this part.	This manuscript is very useful because it was produced from research using a simple method to determine the characteristics of compounds in a chemical reaction.	
Is the title of the article suitable? (If not please suggest an alternative title)	The title of this article is appropriate	
Is the abstract of the article comprehensive? Do you suggest addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract of this article is quite comprehensive	
Are subsections and structure of the manuscript appropriate?	Yes, it's appropriate	
Please write few sentences regarding the scientific correctness of this manuscript. Why do think that this manuscript is scientifically robust and technically sound? Minimum 3-4 sentences may be required for this part.	This research uses a simple method so it requires a lot of perseverance. Apart from that, the very high accuracy and precision in reading pH meter numbers has resulted in a scientific work that has novelty value.	
Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.	The references used are very adequate	
Minor REVISION comments Is language/English quality of the article suitable for scholarly communications?	The language used is relevant in scientific communication	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes. Kindly please write down the ethical issues here in details)</i>
