

Review Form 3

Journal Name:	Journal of Advances in Biology & Biotechnology
Manuscript Number:	Ms_JABB_121419
Title of the Manuscript:	Integrating molecular markers for screening of salinity tolerance in rice genotypes
Type of the Article	

Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.		
Is the title of the article suitable? (If not please suggest an alternative title)		
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.		
Are subsections and structure of the manuscript appropriate?		
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.		
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form. :		

Review Form 3

<p>Minor REVISION comments</p> <p>Is the language/English quality of the article suitable for scholarly communications?</p>		
<p>Optional/General comments</p>	<p>General minor comments on manuscripts entitled “Integrating molecular markers for screening of salinity tolerance in rice genotypes”</p> <p>Abstract Insert the importance of Rice and the major factors that limit the productivity of the crop. Then, continue to describe the objective of this study, the methodology you used for the study, treatments, findings, and future directions and recommendations.</p> <p>Body Old citation. Please use new and updated citations if any. separate each figure and describe it in detail. It also should be moved to an appendix. Better to describe also the relationship between each cluster based on gene frequency and the number of alleles contributing to genotype variances. Please dendrogram to an appendix Move the Dissimilarity matrix for Nei's genetic distance of 15 rice genotypes based on pooled SSR analysis to the appendix Separate conclusions as a paragraph and in an easily understandable manner.</p>	

PART 2:

	<p>Reviewer's comment</p>	<p>Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</p>
<p>Are there ethical issues in this manuscript?</p>	<p><i>(If yes, Kindly please write down the ethical issues here in details)</i></p>
