

Review Form 3

Journal Name:	Journal of Experimental Agriculture International
Manuscript Number:	Ms_JEAI_120955
Title of the Manuscript:	Association Analysis and Structured Equation Modelling in Groundnut (Arachis hypogaea L.)
Type of the Article	

Review Form 3

PART 1: Review Comments

<u>Compulsory</u> REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<p>Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.</p>	<ol style="list-style-type: none"> 1. Quantifying the yield of peanut (arachis hypogaea) based on productive and agro-climatic factors is very important. 2. Peanut is a very important oilseed that generates derivatives such as edible oil, seeds, and livestock fodder.. 3. The correlation analysis method and the path analysis method and the SEM They are very important instruments for modeling using the Restudio statistical package. 	
<p>Is the title of the article suitable? (If not please suggest an alternative title)</p>	<p>The title is appropriate</p>	
<p>Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.</p>	<p>The summary is understandable, it contains: objective, method, results and conclusion</p>	
<p>Are subsections and structure of the manuscript appropriate?</p>	<p>The structure of the manuscript is adequate</p>	
<p>Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.</p>	<p>It is scientifically solid because it presents materials and methods of analysis and technically it is solid because it presents a performance function, that is: the yield of peanuts depends on variables (characteristics, through environment, genetic and non-genetic and others).</p>	
<p>Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.</p>	<p>The bibliographical reference is sufficient</p>	
<p><u>Minor</u> REVISION comments</p> <p>Is the language/English quality of the article suitable for scholarly communications?</p>	<p>The English language is understandable.</p>	
<p><u>Optional/General</u> comments</p>		

Review Form 3

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
