

Review Form 3

Journal Name:	Journal of Experimental Agriculture International
Manuscript Number:	Ms_JEAI_121486
Title of the Manuscript:	Species composition and diversity of stored grain pests in fortified rice collected from different districts of Telangana state
Type of the Article	Original Research Article

Review Form 3

PART 1: Review Comments		
Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	<ol style="list-style-type: none"> 1. The manuscript is important for the scientific community, since the manuscript explains about different species and diversity of Stored Grain Pests in fortified rice samples collected from different districts of Telangana. 2. Since Rice is one of the important staple food of India, storing the rise for long will become a great challenge. In view of this, knowing about different species and diversity, of stored insect grain pass is very important for the scientific community to control these pests and to effectively store rice for long periods. 3. The current manuscript though it explains about the species and diversity of different stored grain pass in different parts of Telangana is good but it should also explain the control measures of these pests also 4. The authors of the current manuscript in addition to identifying the diversity and species of stored grain pests should also focus on the control measures of these pests for effective and long term storage of the fortified rise, which will be more important for the scientific community. 	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes, the title of the manuscript is suitable.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Yes, the abstract of the manuscript is comprehensive.	
Are subsections and structure of the manuscript appropriate?	Yes, the subsections and the structure of the manuscript is appropriate.	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	<p>The authors should do some corrections in the results aspects.</p> <p>The data shown with respect to species composition, Relative abundance and diversity indices which has been shown both in tabular form and Graphical representation. I suggest the authors to focus on any one form of data representation in a tabular format, or in the graphical representation with statistical analysis including standard deviation Error bars. Clear representation of the results data in one form makes the man script technically sound.</p>	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	The overall references and recent references are insufficient authors are suggested to include some more recent references from 2020 onwards.	
<p><u>Minor</u> REVISION comments</p> <p>Is the language/English quality of the article suitable for scholarly communications?</p>	Yes, the language and English quality is suitable for the scholarly communication in the manuscript.	
<u>Optional/General</u> comments	Authors of the manuscript are suggested to do the changes in the result section, as mentioned above.	

Review Form 3

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
