Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	Yes, it is important for the Scientific Community A well-furnished book chapter with a good briefing and great findings The study explores the relationship between Bitcoin price volatility and exchange rates in oil-producing countries using ARIMA and GARCH estimators. Results show significant adjustments in the Bitcoin market impacting local currencies. The ARIMA models for UAE and Kuwait are accurate, while Nigeria's poor model is due to hyper-inflation and volatile money markets. Past currency rates and Bitcoin trading prices can predict future prices, but persistent volatility in some countries indicates increased risk and uncertainty in foreign exchange markets.
