

**Review Form 3**

Journal Name:	<b>International Journal of Plant &amp; Soil Science</b>
Manuscript Number:	<b>Ms_IJPSS_121692</b>
Title of the Manuscript:	<b>Hydroponics, Aquaponics and Aeroponics for Horticultural Crop Production</b>
Type of the Article	<b>Review Article</b>

### Review Form 3

#### PART 1: Review Comments

<b>Compulsory</b> REVISION comments	<b>Reviewer's comment</b>	<b>Author's Feedback</b> (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.</b>	Traditional horticultural methods are encountering unprecedented challenges. Two significant global issues, resource scarcity and population growth, have spurred renewed interest in food production research. Over the past few decades, scientists have been diligently exploring innovative and creative techniques to enhance food production. Collectively, these strategies offer the potential to meet the increasing global food demand in a sustainable and efficient manner. In this context of innovation, hydroponics, aquaponics, and aeroponics emerge as particularly promising approaches	
<b>Is the title of the article suitable? (If not please suggest an alternative title)</b>	<b>YES</b>	
<b>Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.</b>	<b>NO</b>	
<b>Are subsections and structure of the manuscript appropriate?</b>	<b>YES</b>	
<b>Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.</b>	<b>YES</b> , Traditional horticultural methods are encountering unprecedented challenges. Two significant global issues, resource scarcity and population growth, have spurred renewed interest in food production research. Over the past few decades, scientists have been diligently exploring innovative and creative techniques to enhance food production. Collectively, these strategies offer the potential to meet the increasing global food demand in a sustainable and efficient manner. In this context of innovation, hydroponics, aquaponics, and aeroponics emerge as particularly promising approaches	
<b>Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.</b> -	<b>YES</b>	
<b>Minor</b> REVISION comments		
<b>Is the language/English quality of the article suitable for scholarly communications?</b>		
<b>Optional/General</b> comments		

#### PART 2:

	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Are there ethical issues in this manuscript?</b>	<i>(If yes. Kindly please write down the ethical issues here in details)</i>
