PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	The manuscript was poorly written. There were several grammatical and typographical errors. The scope of the work was not robust enough and the research findings had little contribution in addressing the issues raised. The findings did not state how it would help decision makers in moulding policies to solve the problem. The citations were poor and few as well as the reference. The entire manuscript should be overhauled to create a better piece.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract had no information on the significance of the research.	
Are subsections and structure of the manuscript appropriate?	Yes	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	Please refer to my earlier comments above.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	References are poor and few. They were not uniform and had no format. Complete overhaul is required.	
Minor REVISION comments Is the language/English quality of the article suitable for scholarly communications?	I recommend major revision before the manuscript can be accepted.	
Optional/General comments
