<p>Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form. =</p>		
<p>Minor REVISION comments</p> <p>Is the language/English quality of the article suitable for scholarly communications?</p>		
<p>Optional/General comments</p>	<p>This is a rare case of interest to the orthopedic specialty. The article was well written and the English was clear. However, the case documentation was insufficient; we have MRI images, photos of the knee, and surgery of only one knee. If you have this collection, please attach it to the article for better understanding and credibility of the case. This is my personal opinion. Marcos Laube.</p>
