Peer review Comments Approval Policy: <https://r1.reviewerhub.org/peer-review-comments-approval-policy/>

Benefits for Reviewers: <https://r1.reviewerhub.org/benefits-for-reviewers>

**Review Form 3**

**PART 1: Review Comments**

<b>Compulsory</b> REVISION comments	Reviewer's comment	<b>Author's Feedback</b> <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write few sentences regarding the importance this manuscript for scientific community. Why do you like (or dislike) this manuscript? Minimum 3-4 sentences may be required for this part.	The manuscript has of immense importance for the scientific community. Firstly, the manuscript tries to assess the importance of non-farm activities on livelihood diversification of rural farm households. The issue of livelihood diversification is a burning topic since it contributes a lot in risk aversion and livelihood improvement of smallholder farmers in developing countries including Bangladesh.	
Is the title of the article suitable? (If not please suggest an alternative title)	The title is suitable since it reflects the contents of the manuscript.	
Is the abstract of the article comprehensive? Do you suggest addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract of the manuscript is comprehensive consisting all the necessary contents expected of a well written abstract. I suggest to keep as it is except the keywords should be written alphabetically.	
Are subsections and structure of the manuscript appropriate?	The subsections and structure of the manuscript are appropriate. They are coherent and well sequenced. However, I strongly recommend the author to use same writing style throughou	
Please write few sentences regarding the scientific correctness of this manuscript. Why do think that this manuscript is scientifically robust and technically sound? Minimum 3-4 sentences may be required for this part.	The manuscript is scientifically appropriate since it has followed the required scientific procedures and hence is scientifically correct. The methodologies used here are robust and technically sound. The literature reviewed are highly related to the topic of the study and recent ones.	
Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.	The references are somewhat sufficient except there are some sentences for which sources are not cited in the introduction part.	
<b>Minor</b> REVISION comments  Is language/English quality of the article suitable for scholarly communications?	The language is appropriate and free from jargon words. It is easily understandable to an average reader. So the language used is quite appropriate for scholarly communication.	
<b>Optional/General</b> comments
