PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	Drug-induced liver injury in children with Acute Leukaemia is an essential topic for the scientific community, sparking curiosity and interest. Acute Leukaemia, the most common malignancy in children, requires treatment with chemotherapeutic agents. Unfortunately, this treatment can lead to several side effects, including liver injury. This manuscript highlights the factors that need to be considered when deciding on treatment and the measures to take for liver injury, underscoring the need for further research in this area.	
Is the title of the article suitable? (If not please suggest an alternative title)	The title can be modified to "A Single-Center Clinical Analysis of Drug-Induced Liver Injury in Children with Acute Leukemia."	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Study Design should be included in the abstract.	
Are subsections and structure of the manuscript appropriate?	Subsections like Acknowledgements, Competing Interests, Authors' Contributions, Consent (where applicable), and Ethical approval (where applicable) are missing from the manuscript.
